MOBILITY

About Aichi Prefecture's Efforts

In Aichi Prefecture, introduction of service robots has been promoted
in various facilities and fields since 2019,
to disseminate to the world
Aichi's robotics technologies and advanced form of society.

FY2021 Project

ARX AICHI ROBOT
TRANSFORMATION

From the fall of 2021, a social implementation project starts in Aichi.
The project will spark innovation by creating alignment between robot vendors and users,
enabling to provide services with cutting-edge technology.

Coming Soon!
